Policies, Regulations & Infrastructure  
for a Safer & Sustainable Future

Fri., 27th Feb 2026  
Hotel Le-Meridien, New Delhi

*Participation by invitation only*

# ITTAC Conference 2026

Policies, Regulations & Infrastructure  
for a Safer and Sustainable Future

In an era marked by rapid technological evolution, climate imperatives, and growing mobility needs, the need for harmonised **policies**, robust **regulatory frameworks**, and future-ready **infrastructure** has never been more critical.

The **3rd ITTAC Conference**, scheduled for **27th February 2026**, will convene leading national and international voices across government, industry, research institutions, and regulatory bodies to deliberate on a shared agenda—building a safer and more sustainable future for mobility.

Building on the momentum of the previous two editions, this year's conference aims to catalyse a deeper dialogue around **policy alignment**, **technical standards**, and **enabling infrastructure** for sustainable mobility systems.

The theme — Policies, Regulations & Infrastructure for a Safer and Sustainable Future — reflects ITTAC's long-standing commitment to fostering knowledge exchange and thought leadership in the tyre and mobility ecosystem.

## Key Focus Areas

Global and Indian regulatory trends impacting the tyre and mobility sector

Policy frameworks enabling sustainable and circular practices in manufacturing

Infrastructure preparedness for EVs and future mobility

Standardisation and harmonisation of tyre testing and certification

Integration of digital technologies and data-driven compliance

The conference will feature a mix of plenary sessions, technical papers, panel discussions, and industry roundtables, offering a platform for actionable insights, collaborative partnerships, and forward-looking strategies.

## A Pivotal Event

By bringing together policymakers, regulators, OEMs, tyre manufacturers, academia, and technical experts, the 3rd ITTAC Conference promises to be a pivotal event that not only shapes the future of tyres but also contributes meaningfully to India's broader vision of **safe, green, and inclusive mobility**.

## Participation From

# Glimpses

Previous two editions of ITTAC Conference witnessed congregation of over 200 Industry leaders each, top Government officials, domain experts and thought leaders participating from around the world including delegations from ETRMA and JATMA
